

# Edge Reminders

Edge Reminders is a great way to stay in contact with your patients, and minimize no shows. This easy-to-use system allows you to send reminders via phone, text, and/or email. Edge Reminders is available with both Edge Cloud and ViewPoint.

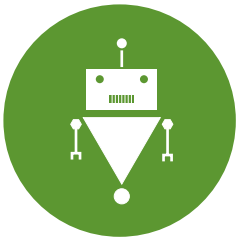

## Personal

Make your message exactly what you want your patients to hear. No more canned messages. Customize your reminders with your specific message using a human voice. And add your unique touch with Edge Broadcast, your own personalized newsletter platform, which comes included with Edge Reminders.

## Convenient

Don't limit yourself to appointment reminders, use Edge Reminders to send out monthly birthday messages, recall appointment reminders, or payment reminders to ensure your business is staying connected with your patients.

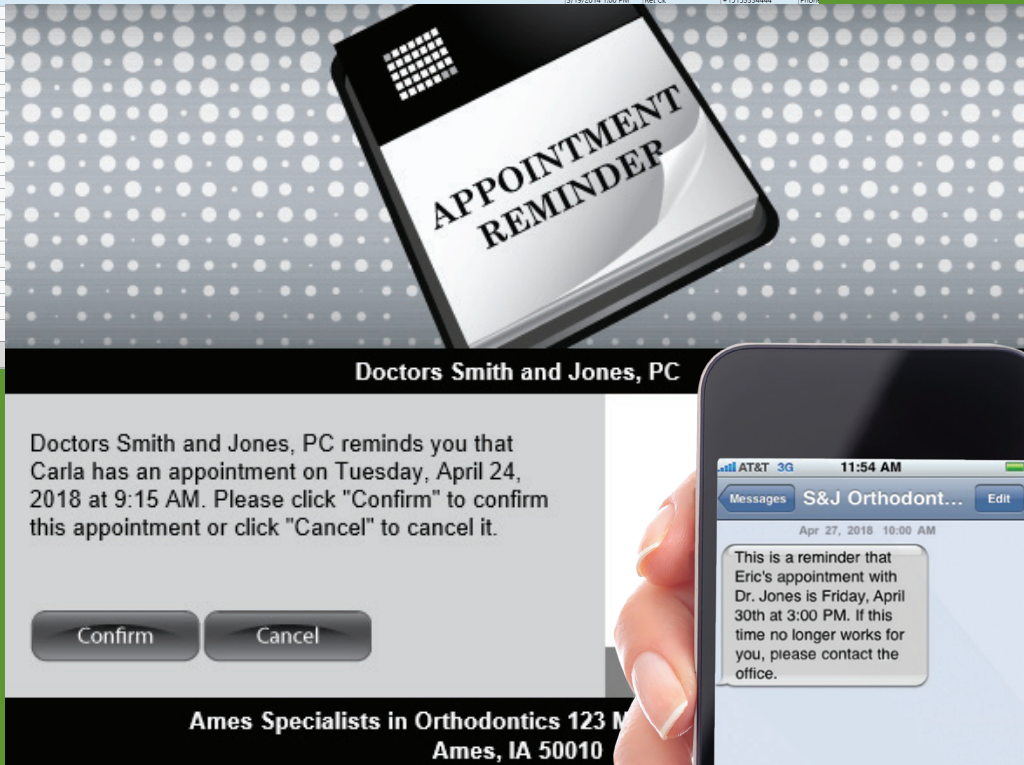

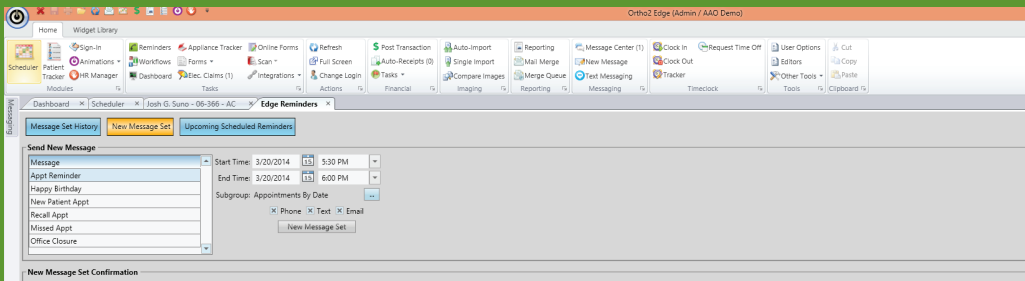

## Automated

Send out messages in batches or automate the entire process so that you can spend your time on other things. Scheduled reminders allows you to set regular messages to go out automatically. Patient responses even sync into your schedule.

## Cost Effective

With no minimum monthly charges and no long term commitments, Edge Reminders is a money-saving way to stay in contact with your patients. Choose the pay-as-you-go or unlimited use plan that best suits your needs.

“Edge Reminders has reduced our no-show rate.”  
 - Dr. Gregory Pezza, Cranston, RI

## Edge Reminders

Staying in contact with your patients is important. Let them know that they're on your mind by sending them appointment reminders and other greetings in the way that is most convenient for them. Edge Reminders makes sure that your patients are informed and on-time so that you can better treat them.
